Louisiana Jockey Club-Steckler's Grass Planted Exclusively on These Grounds

July 1st, 1927.

### TO OUR FRIENDS AND CUSTOMERS:

In issuing this fall price list of 1927, we are making it as small as it can be written and only outlining the varieties and prices, knowing that many of our friends already have our descriptive catalog of 1927 and if you should not have one, drop us a postal card and we shall be glad to mail same. We are doing this to minimize the cost of this price list and allow it to our friends in the cost of the seed, giving the same superior quality seed and of the highest germination. Upon receipt of this circular we hope that you will let us have your orders promptly which will be filled as soon as received.

## Special Note

Having at heart the sympathy and welfare of our friends who are suffering from the flood situation, we will allow from this price list a special discount of 25 percent on all garden and flower seeds and bulbs, and a special discount of 10 percent on all field seeds.

### STECKLER'S WHITE SHALLOTS

Rouquet

Planted August to March. For home consumption and Northern markets. About 5 bushels per acre.

The quantity to be expected from an acre, if planted in field culture, 4 foot rows, would be from 50 to 60 barrels, but if planted, as is done near New Orleans, in 2 foot rows, 100 to 125 barrels, if planted in August and September. If planted later, they do not multiply so well. Quart 25c; gallon 75c, postpaid; peck \$1.25; bushel \$3.75, not prepaid. Write for quantity prices.
